

Dear patients of South River Pediatrics,

As of August 1<sup>st</sup>, South River Pediatrics will no longer be accepting new patients that do not follow the Center for Disease Control's (CDC) Vaccination Schedule ([www.cdc.gov/vaccines/schedules](http://www.cdc.gov/vaccines/schedules)), as well as recommendations set forth by the American Academy of Pediatrics (AAP). We strongly believe in the effectiveness and the safety of this vaccine schedule and we have attached our "South River Pediatrics Vaccine Policy" for your reference. As stated in the policy, we would be happy to discuss any questions or concerns you may have regarding vaccines. If you decide not to follow this schedule or refuse vaccines, we ask that you find another practice that shares your views.

For those current patients of South River Pediatrics that are unvaccinated or behind on vaccines, we are requiring that these families catch up on the required vaccines over the next 2 years. If you decide not to obtain vaccines, we again ask that you find another practice that shares your views.

Should you have any questions or concerns, please feel free to discuss these with your provider.

We thank you for your cooperation and consideration in the matter.

Sincerely,

Providers of South River Pediatrics
